**7 STEPS TO PERFECTION™**  
**FEATURING TOTAL FEEL TECHNOLOGY™**

**PERFECTION ELITE**

**1 TOTAL FEEL TECHNOLOGY™**  
 The Perfection™ game volleyball is the result of Baden's ongoing quest for the most consistent, top performing volleyball in the world. To bring this lofty goal to reality, every aspect of the traditional ball was analyzed and re-engineered. Our belief is players should determine the outcome of a game, not the ball. Once you put the ball in your player's hands the result speaks for itself.

**2 EXCLUSIVE LEATHER COVER**  
 Prism carefully selected hides chosen specifically for the Baden Perfection™ volleyball. Tanned for optimum touch, feel, durability, and performance, the cornerstones of Baden's game changing Total Feel Technology™.

**3 STEALTH SOFT-VALVE SYSTEM™ (Patent Pending)**  
 By re-engineering the entire valve system, including the valve core and valve housing, Baden has softened the entire valve panel creating a 100% consistent feel throughout all 18 panels. Combined with the cushioning surrounding the hidden, recessed, undetectable valve, players no longer experience the pain associated with hard, exposed valves found on all other volleyballs. Eliminating the one panel associated with errant digs, sets, and spikes makes the Perfection™ the most accurate playing volleyball.

**4 BLENDED CLOTH WRAP**  
 Baden uses a special lightweight cotton blend for maximum strength and durability while enhancing the incredible touch of the Perfection™.

**5 LIGHT WEIGHT BUTYL BLADDER**  
 Our state of the art bladder was developed to accommodate the exclusive leather cover of the Perfection™ volleyball. This butyl bladder is the lightest ever used for volleyball. It provides the optimum weight, performance, and durability – a key component of Total Feel Technology™.

**6 SPECIALLY FORMULATED ADHESIVE**  
 Thorough and exhaustive experimentation resulted in the precise adhesive formula crucial to the feel and response during impact between ball and player. This Baden reformulated adhesive is used in all aspects of construction, i.e. panel lamination, 535™ valve system installation, and cloth wrap application.

**7 SPECIAL GRAPHICS APPLICATION**  
 During the most commonly used application process the affected panel changes consistency, becoming harder. Baden's unique graphics application technology maintains the panel's integrity, producing the supple feel and incredibly soft touch so important to a world-class volleyball.
